About

I'm a passionate Front-End Developer proficient in HTML, CSS, JavaScript, React, and Tailwind CSS, leveraging solid fundamentals in object-oriented programming, data structures, and C++ to craft efficient, maintainable solutions. My strong English communication skills ensure clear articulation of complex ideas and precise alignment with client objectives. Currently, I'm broadening my expertise into full-stack development—focused on architecting secure, scalable, high-performance applications.

Technical Skills

Fundamentals (C++): Object-Oriented Programming, Data Structures, Algorithmic Problem-Solving

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Tailwind CSS, Fetch API, Axios, Async/Await

Databases: MSSQL

Tools & Platforms: VS Code, Visual Studio, Git, GitHub, npm, Webpack, Netlify, SQL Server Management Studio (SSMS)

Project Experience

Driving License Management System (DVLD) — GitHub Repo   Jan 2025 – Fev 2025
- Developed a C# WinForms desktop app with SQL Server using a 3-layer architecture.
- Handled license issuance, renewal, replacement, and exam scheduling.
- Integrated 7+ license types with custom rules and age/fee constraints.
- Built role-based access control for applicants and administrators.

Muslim Prayer Times Web App — GitHub Repo   Jun 2025 – Jul 2025
- Built a responsive React web app showing prayer times for any city using Aladhan API.
- Implemented city search, live clock, and countdown to next prayer.
- Integrated AI chatbot (Google Gemini) for Islamic Q&A in English and Arabic.
- Enabled bilingual UI with full RTL/LTR layout switching via i18next.
- Used TailwindCSS, Axios, Day.js, and Vite for a modern development stack.

Creative Agency Web Portfolio — GitHub Repo   May 2025 – May 2025
- Built a responsive, animated agency website using HTML, CSS, and vanilla JavaScript.
- Developed custom sections: gallery, timeline, testimonials, and feature highlights.
- Added user settings panel with color themes, UI toggles, and local storage support.
- Implemented smooth scrolling, dynamic backgrounds, and interactive pop-up gallery.

Responsive Front-End Projects — GitHub Portfolio   March 2025 – Jul 2025
- Built multiple responsive HTML/CSS templates with semantic structure and clean design.
- Designed full admin dashboard (Isaac Desk) with custom framework, cards, charts, and file management UI.
- Created agency/business templates (Master, Kasper, Leon) with grid layouts, animations, and mobile-first styling.
- Implemented UI patterns: testimonials, progress bars, feature blocks, galleries, and theme settings.
- Used CSS3 variables, Flexbox, Grid, Font Awesome, and Normalize.css for layout and consistency.

Education

ENS Bouzaréah, Algiers. Bachelor's in English Language Education   Sep 2023 – Jun 2028
- Currently pursuing a rigorous academic program with a strong focus on communication and pedagogy.
- **Coursework:** Linguistics, Literature, Grammar, Educational Psychology
